AtomHacks Code of Conduct

Short Version:

AtomHacks is dedicated to providing a harassment-free hackathon experience for everyone, regardless of gender, sexual orientation, disability, physical appearance, body size, race, or religion. We do not tolerate harassment of participants in any form. We do not tolerate discriminatory or offensive language (even in jokes).

Sexual language and imagery is not appropriate in any hackathon venue as well as any online or social media.

Participants violating these rules may be disqualified and asked to leave the event at the sole discretion of the event organizers. They may also receive further consequences from the school.

Long Version:

Harassment includes but is not limited to offensive communication related to gender, sexual orientation, disability, physical appearance, body size, race, religion, sexual images in public spaces, deliberate intimidation, stalking, following, harassing photography or recording, sustained disruption of talks or other events, inappropriate physical contact, and unwelcome sexual attention.

Participants asked to stop any harassing behavior are expected to comply immediately.

Sponsors, judges, mentors, volunteers, organizers, and anyone else at the event are also subject to the anti-harassment policy. In particular, attendees should not use sexualized images, activities, or other material both in their hacks and during the event. Attendees should not use sexualized clothing/uniforms/costumes, or otherwise create a sexualized environment.

If a participant engages in behavior that violates this code of conduct, the AtomHacks organizers may take any action they deem appropriate, including warning the offender, disqualification, expulsion from AtomHacks, and/or further school disciplinary actions such as a Dean's referral.

If you are being harassed, notice that someone else is being harassed, or have any other concerns, please contact Ms. Thomas or a member of the AtomHacks staff immediately. AtomHacks staff can be identified with the role "Organizers" on the Discord server. In addition, please contact Ms. Thomas, the faculty advisor of AtomHacks, at thomas1@bxscience.edu.

Discord

Please be respectful in all voice channels and conversations. There will be moderators who will monitor the chat at all times. Any inappropriate and offensive content will be removed and further consequences may incur. Your nickname must match your actual name (This is so we can verify that you are a current Bronx Science student). Profile pictures and screen-shared content must be school-appropriate. Please be mindful of the large number of attendees, including guest mentors and faculty, who can also see your messages in the general chat.

Zoom

Please be respectful to everyone at the workshop at all times, whether it is talking or texting in the Zoom chat. Keep yourself muted unless you are presenting or asking a question. All virtual backgrounds, profile pictures, and screen-shared content must be school-appropriate. Any inappropriate and offensive content will be removed and further consequences may incur. Your username must match your actual name (This is so we can verify that you are a current Bronx Science student). Please be mindful of the large number of attendees who can also see your messages in the general chat.
